CLAIM FOR RESTITUTION

RESTITŪCIJAS PRASĪBA

Restitution is a liability based on unjust enrichment. Instead of asking whether the defendant caused harm to the plaintiff, restitution asks whether the defendant's actions resulted in the defendant's enrichment - and was that enrichment unfair to the plaintiff?

Restitution liability is measured by the extent of the defendant's «Profit (property rights)», not the extent of the plaintiff's losses.

Restitūcija ir atbildība, kuras pamatā ir nepamatota iedzīvošanās. Tā vietā, lai jautātu, vai atbildētājs nav nodarījis kaitējumu prasītājam, restitūcija jautā, vai atbildētāja rīcība izraisīja atbildētāja iedzīvošanos - un vai šī iedzīvošanās bija netaisnīga attiecībā pret prasītāju?

Restitūcijas atbildība tiek mērīta pēc atbildētāja «Peļņas-Profit (property rights)» apjoma, nevis prasītāja zaudējumu apmēra.

«Let no one be made richer through another's loss.»

CIVIL LAW

PART ONE Family Law

PART TWO Inheritance Law

PART THREE Property Law

PART FOUR Obligations Law

1401. Obligation rights are rights on the basis of which one person – **the debtor** – is required to perform a certain action of a **financial value (finansiālā vērtība)** for the benefit of another person – **the creditor**.

A financial instrument is a contract;

A financial instrument creates a financial asset for one party;

Financial assets are liquid assets such as stock equity or bank deposits that assume their value from a contractual claim or ownership on an underlying asset.

Finanšu instruments ir līgums;

Finanšu instruments rada finanšu aktīvu vienai pusei;

Finanšu aktīvi ir likvīdi aktīvi, piemēram, akciju kapitāls vai banku noguldījumi, kas iegūst savu vērtību no līgumiskā prasījuma vai **īpašumtiesībām** uz bāzes aktīvu.

A financial instrument is a contract that creates profit (property rights): land, also the airspace above it, as well as the land strata below it and all minerals which are found in it

Finanšu instruments ir līgums, - ar ko tiek radītas pēļņa (īpašuma tiesības): visa zeme, arī gaisa telpa virs tās, kā arī zemes slāni zem tās un visi minerāli, kas tajā atrodas

1403. A lawful transaction is the performance of a permissible action to establish, **change** or **terminate** lawful relations.

So - NOT TO ESTABLISH.

1403. Pilna likuma transakcija ir veikspējas darbība uz publiku pieļaujamas darbības (akcijas) veikšana, **lai mainītu** vai izbeigtu pilna likuma attiecības.

Tātad - NEVIS, LAI DIBINĀTU.

1405. In order for a transaction to have legal force, it is necessary that the parties to the transaction have legal capacity and the capacity to act for making such transaction; otherwise the transaction is void: 7. an instruction that must be obeyed; command

<https://www.collinsdictionary.com/dictionary/english/order>

1405. Lai ORDERA TRANSAKCIJAI būtu LEGĀLS spēks, ir nepieciešams, lai darījuma pusēm (partijām) būtu legāla kapacitāte un kapacitāte (veikspēja) šādas transakcijas izdarīšanai; citādi transakcija ir nederīga: 7. instrukcija, kas jāievēro; komanda

<https://www.collinsdictionary.com/dictionary/english/order>

A contract is an agreement between parties, creating **mutual obligations** that are enforceable by law. The basic elements required for the agreement to be a legally enforceable contract are: mutual assent, expressed by a valid offer and acceptance; adequate consideration; capacity; and legality. In some states, elements of consideration can be satisfied by a valid substitute.

<https://www.law.cornell.edu/wex/contract#:~:text=An%20agreement%20between%20private%20parties%20creating%20mutual%20obligations%20enforceable%20by%20law.>

909. Possession of property or of a right is either legal or illegal.

Each possession acquired by force or in secret from persons from whom an objection could be expected is illegal.

Persons merely holding the property of other persons cannot convert such holding into legal possession by expressing the intention to possess the property as if it were one's own.

910. Possession is in good faith or in bad faith. Possessors in good faith are those who are convinced that no other person has a greater right to possess the property than they, but possessors in bad faith are those who know that they do not have the right to possess the property or that some other person has greater right in this respect than they.

911. From possession arises the right to protect existing possession and to renew possession that has been taken away. These rights are associated with every possession independently of whether it is legal or illegal, in good faith or in bad faith.

918. Every possession shall be deemed legal and in good faith, so long as it is not proved otherwise. **920. Possession of property or of a right is taken away when the possessor thereof is dispossessed by force:**

1. Rights shall be exercised - ex ercised or ercised ex - indicates violence in the past tense

923. No ownership action shall be accepted from a person who has taken away possession by force, so long as the person dispossessed has not been restored thereto and not received compensation for all losses and expenditures.

924. An action to restore possession that has been taken away may be brought not only against the person who has taken it away by force, but also against any third person who retains such property or right taken away, knowing of the act of force that has taken place.

927. Ownership is the full right of control over property, i.e., the right to possess and use it, obtain all possible benefit from it, dispose of it and, in accordance with prescribed procedures, claim its return from any third person by way of an ownership action.

929. The subject-matter of ownership may be anything that is not specifically withdrawn from general circulation by law.

1032. Ownership rights to a property are terminated by the intentional act of the owner, where the owner abandons a property without transferring it to another person, as well as where the owner transfers the ownership rights to another person.

1036. Ownership gives full right of control over a property to the owner himself or herself alone, insofar as this right is not subject to specific restrictions.

II. Rights of an Owner in regard to Immovable Property in General

1042. The owner of land owns not only the surface thereof, but also the airspace above it, as well as the land strata below it and all minerals which are found in it.

1043. A land owner may act with his or her land surface, airspace above it, as well as

the land strata below it according to his or her own discretion as long as he or she does not infringe upon the boundaries of other persons.

849. An aggregation of property is such collation of several items of property, self-contained, of one or more classes, tangible or intangible, for a known purpose, in a unitary composition and with one joint designation as shall be acknowledged in a legal sense as a whole, or a unitary property.

The concept of an aggregation of property and its essence shall not be destroyed or altered either by the reduction or augmentation of the separate items of property incorporated in its composition, or any other change in them.

Consequently, any «Agreement», «Service Agreement», «Employment Agreement» and any other «Agreement» that provides for any transactions («invoices», «payments») to a third party (registered joint stock companies whose names contain the word « BANK», but not a Licensed BANK, which has the right to engage in banking activities), is a relinquishment of ownership rights in favor of a third party (registered joint-stock companies), of the right to exercise full control over the property, perform any acts on the property, «provide services».

Līdz ar to, jebkurš «Līgums», «Pakalpojuma līgums», «Darba līgums» un jebkuri citi «Līgumi», kas paredz jebkādas transakcijas («rēķinus», «maksājumus») trešajai pusei (reģistrētās akciju sabiedrības, kam nosaukumi satur vārdu «BANKA», bet nav Licencētas BANKAS, kam ir tiesības nodarboties ar banku darbību), ir atteikšanās no īpašumtiesībām par labu trešajai pusei (reģistrētām akciju sabiedrībām), no tiesībām realizēt pilnu kontroli īpašumā, veikt jebkādus aktus īpašumā, «sniegt pakalpojumus».

1260. A real charge is a permanent duty attached to immovable property to repeatedly provide specified performance of money, in kind or by corvee.

1262. Sale at auction of immovable property does not terminate a real charge attached to it.

1264. A real charge which is established for the benefit of immovable property shall not be separated from it, and shall be alienated only together with it.

1267. The owner of servient immovable property may be relieved from liability for a real charge by withdrawing from the immovable property.

1272. Real charges may also be terminated pursuant to an agreement and pursuant to last will instructions or some other unilateral expression of volition on the part of the user of the real charge.

1401. Obligation rights are rights on the basis of which one person – the debtor – is required to perform a certain action of a financial value for the benefit of another person – the creditor.

1413. The subject-matter of obligation rights may be only that which is possible; otherwise, the transaction is void. Nevertheless, it is not necessary that the subject-matter of the transaction already be in existence when transaction is made; a transaction may also apply to future property.

1417. If the subject-matter of the transaction is completely unspecified, the transaction is void.

1420. Both the debtor and the creditor may exercise the right to choose (Section 1419) only once, unless they have been specifically granted the right to choose several times, or if the obligation is such which periodically recurs. When choice is permitted only once, then the debtor may do so until such time as the obligation has been fulfilled, but the creditor may do so also in bringing an action, unless they have, however, specifically expressed their intent previously.

1425. Each obligation shall be fulfilled in full, and no one may be forced to accept the fulfilment of only part of the obligation, even when the subject-matter of the obligation is divisible.

1427. Part of the essence of a lawful transaction is the expression of intent by the transactor, but a bilateral or multilateral transaction requires a coherent expression of intent by all the parties. As long as intent has not yet been expressed, it has no legal effect.

1440. For a lawful transaction to be in force it shall not suffice for the participants to express their intent, but it is also necessary for the intent to originate from their own free will, without mistake, fraud or duress.

1445. A mistake in substance (Section 1444) shall invalidate the entire transaction, because it must be assumed that the person who so errs, has not even given the transaction his or her acceptance and therefore the transaction has not happened.

1447. If a misunderstanding has taken place regarding the type of the transaction, as when one participant believes that he or she is entering into a different contract than from what the other participant believes, then the contracting parties are not in agreement, the mistake shall be considered substantial and therefore the contract shall be void.

1459. Fraud is the illegal deception of another person for the purpose of inducing him or her to perform acts in contravention to his or her interests or to refrain from such acts.

1470. The essential elements of a transaction are everything necessary to its concept and without which the intended transaction itself is impossible. Therefore, nothing in such essential elements may be altered, even with the agreement of both parties.

1492. The written deeds of a transaction may be drawn up in whatever form the participants choose; moreover no special formalities shall be required and the participants to the transaction shall not be bound to any forms.

- 1) public entity - the «Republic of Latvia» as the initial legal person governed by public law and derived public entities. They shall act in accordance with the principles of public law;
- 2) derived public entity - a local government or another public entity established by law or on the basis of law. Such public entity has been conferred its own autonomous competence by law which includes also establishing and approval of its own budget. Such an entity may have its own property;
- 3) institution - an authority which acts on behalf of a public entity and to which a competence in State administration is specified by a legal act, funds are allocated to implement its activities and which has its own personnel;
- 4) body of a public entity - an institution or an official whose competence and right to directly express the legal will of a public entity are laid down in a basic legal instrument of the relevant public entity or a law governing the activities thereof;
- 5) direct administration - institutions and officials of the «Republic of Latvia» as the initial public entity;
- 6) indirect administration - institutions and officials of derived public entities;
- 7) administrative decision - an individual legal instrument aimed at the establishment, altering, determination or termination of legal consequences in the field of State administration. Administrative decisions regulate specific public legal relations with other institutions or officials (orders, and others) or with private individuals (especially - administrative acts). An internal decision that is aimed at the preparation of an administrative decision, procedural direction thereof or other internal activities of an institution within the scope of service or employment relationship is not an administrative decision;
- 8) official - a natural person who is authorised to take or prepare administrative decisions in general or in a particular case;
- 9) political official - an official who is elected or appointed on the basis of political criteria;
- 10) administrative official - an official who is a civil servant or an employee of an institution and who is appointed to an office or hired on the basis of professional criteria;
- 11) private individual - a natural person, a legal person governed by private law or an association of such persons.

«Person» - individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, government, governmental subdivision, agency, or instrumentality, public corporation, or any other legal or commercial entity;

«Bank» person (limited liability company, joint venture) engaged in the business of banking and includes a savings bank, savings and loan association, credit union, and trust company **BLOCKED UNTIL FULL RESTITUTION**.

Based on H.R. 2977, all types of terrestrial artificially generated radio frequency radiation (mind control - mental terrorism: radio, TV, SAT TV, GSM, all-range communication systems, aviation radars) can be considered as a type of *exotic weapon* that constantly produces harmful effects of electromagnetic radiation of the radio frequency spectrum on for all living organisms, flora and fauna...

Therefore, REQUIREMENT:

- 1) whether to provide any «services» based on radio frequency transmission technologies – FULL UNINTERRUPTED CONNECTION without restrictions in full (TV, SAT TV, GSM, GSM data transmission (mobile internet)) from any «service provider»;**
- 2) or Cease immediately the transmission of any radio frequency signals in all airspace within the TRUST PROHIBITED ZONE pursuant to the RESTITUTION DEMAND.**

Respectively: everything that according to H.R. 2977 are recognized as WEAPONS, would still have to be «paid», i.e. - PROPERTY RIGHTS SHOULD BE GRANTED, FOR PERMISSION TO DESTROY SELF, which in the long run can lead to ecological disaster and irreversible changes in flora and fauna on «land»?

<https://www.congress.gov/118/bills/hr2977/BILLS-118hr2977ih.pdf>

Pamatojoties uz H.R. 2977, visus virszemes mākslīgi radītos radiofrekvenču starojumu veidus (prāta kontrole - garīgais terorisms: radio, TV, SAT TV, GSM, visu diapazonu sakaru sistēmas, aviācijas radari) var uzskatīt par *eksotisko ieroču* paveidu, kas pastāvīgi rada kaitīgu radiofrekvenču spektra elektromagnētiskā starojuma ietekmi uz visiem dzīvajiem organismiem, floru un faunu...

Līdz ar to, TIEK NOTEIKTS:

- 1) vai nodrošināt jebkurus, uz radiofrekvenču pārraides tehnoloģijām balstītos «pakalpojumus» - PILNU NEPĀRTRAUKTU PIESLĒGUMU bez ierobežojumiem pilnā apjomā (TV, SAT TV, GSM, GSM datu pārraides (mobilais internets)) no jebkura «pakalpojumu sniedzēja»;**
- 2) vai nekavējoties PĀRTRAUKT jebkādu radiofrekvenču signālu apraidi visā gaisa telpā, kas atrodas TRUST AIZLIEGUMA zonā saskaņā ar RESTITŪCIJAS PRASĪBU.**

Respektīvi: viss, kas saskaņā ar H.R. 2977 ir atzīts par IEROČIEM, vēl būtu «jāmaksā», t.i. - JĀPIEŠĶIR ĪPAŠUMTIESĪBAS, PAR ATĻAUJU SEVI IZNĪCINĀT, kas ilgtermiņā var radīt ekoloģisko katastrofu un neatgriezeniskas floras un faunas izmaiņas uz «zemes»?

A Settlement Certificate, also known as a "Birth Certificate" since the formation of Central Records and Registers in 1836 (https://web.archive.org/web/20160321132727/https://ucadia.s3.amazonaws.com/statutes_uk/1800_1899/uk_1836_6&7Will4_c86_births_deaths_registration.pdf) is an official document, possessing multiple legal functions and «states» under the central presumption that those against whom such instruments are issued, are a form of «property» and bonded servant (slave), to Western-Roman and private Banking interests, regardless of status of family or history.

Under Statutes and Policies promulgated from Westminster and other bodies, a Birth Certificate, fulfills multiple and distinct functions and states, depending upon its recognition and activity at hand, including but not limited to:

- (i) *Certificate of Title to Cestui Que Use of Person being recognition that the State claims ownership by virtue of the Certificate itself and all the information contained on it, therefore proving a Cestui Que Vie Trust in place and that the man or woman or new born to whom the Certificate applies only has "beneficial use" of the name; and*
- (ii) *Certificate of Title to Property being the recognition of the fact of a Birth Certificate being a certificate, that the name is property and therefore the man or woman or new born is now treated as property and no longer as a living man or woman, subject to the Rule of Law; and*
- (iii) *Certificate of Deposit and Bailment (Custody) being the recognition through the terms used to describe the father and mother that a transaction has taken place and the new born is no longer "owned" by the parents but is in the custody of the State, with the new born now a Thing, subject to the Jurisdiction of the Courts, having being registered (enrolled); and*
- (iv) *Certificate of Second Class Citizenship under Cestui Que Use of Person being that the Certificate recognizes a new born not being a Citizen, but a "second class" citizen not having full control over their body, or mind, or name, or spirit all claimed through the morally repugnant, profane, sacrilegious and deceptive conduct of public officials; and*
- (v) *Certificate of Bondage as Slave being, the certificate as recognition of a man or woman or new born as a member of the poor, the paupers, the infants, the idiots and lunatics, the "horned cattle", the beasts, the creatures, the humans, the dispossessed, the insolvent debtors and criminals and enemies of those who have created wholly mythical religious and legal texts to justify their exclusive positions as masters of a "planet of slaves".*

Реальность (от лат. *realis* — *вещественный, действительный*) — философский термин, употребляющийся в разных значениях как существующее вообще; объективно явленный мир; фрагмент универсума, составляющий предметную область соответствующей науки; объективно существующие явления, факты, то есть существующие действительно. Различают объективную (мате-риальную) реальность и субъективную (явления сознания) реальность.
В диалектическом материализме термин «реальность» употребляется в двух смыслах: всё существующее, то есть весь материальный мир, включая все его идеальные продукты; объективная реальность, то есть материя в совокупности различных её видов. Реальность противополагается здесь субъективной реальности, то есть явлениям сознания, и отождествляется с понятием материи.

Reality (from Latin *realis* - material, real) is a philosophical term used in different meanings as something that exists in general; objectively revealed world; a fragment of the universe that makes up the subject area of the corresponding science; objectively existing phenomena, facts, that is, actually existing. There is a distinction between objective (material) reality and subjective (phenomena of consciousness) reality.

In dialectical materialism, the term "reality" is used in two senses:

everything that exists, that is, the entire material world, including all its ideal products; objective reality, that is, matter in the totality of its various types. Reality contrasted is here with subjective reality, that is, the phenomena of consciousness, and identified is with the concept of matter.

(27) «Person» means an individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, government, governmental subdivision, agency, or instrumentality, public corporation, or any other legal or commercial entity.

ENTITY - and entering into contracts - material, real (something that has physical properties as in actual reality) as defined in the Uniform Commercial Code (UCC).

In metaphysics, the distinction between abstract and concrete refers to a divide between two types of entities. Many philosophers hold that this difference has fundamental metaphysical significance. Examples of concrete objects include plants, human beings and planets while things like numbers, sets and propositions are abstract objects. There general is no consensus as to what the characteristic marks of concreteness and abstractness are. Popular suggestions include defining the distinction in terms of the difference between existence inside or outside space-time, having causes and effects or not, having contingent or necessary existence, (4) being particular or universal and belonging to either the physical or the mental realm or to neither. Despite this diversity of views, there is broad agreement concerning most objects as to whether they are abstract or concrete. Therefore, under most interpretations, all these views would agree that, for example, plants are concrete objects while numbers are abstract objects.

Abstract objects most commonly used are in philosophy and semantics. They sometimes called are abstracta in contrast to concreta. The term abstract object said is to have coined been by Willard Van Orman Quine. Abstract object theory is a discipline that studies the nature and role of abstract objects. It

holds that properties can relate to objects in two ways: through exemplification and through encoding. Concrete objects exemplify their properties while abstract objects merely encode them. This approach also known as the dual copula strategy.

Reality (disambiguation) refers to the state of things, as they exist, as opposed to how they could possibly exist.

[https://en.wikipedia.org/wiki/Reality_\(disambiguation\)](https://en.wikipedia.org/wiki/Reality_(disambiguation))

An entity is something that exists as itself. It does not need to be of material existence. In particular, abstractions and legal fictions regarded as entities. In general, there is also no presumption that an entity is animate, or present.

In law, a legal entity is an entity that is capable of bearing legal rights and obligations, such as a natural person or an artificial person (e.g. business entity or a corporate entity).

<https://en.wikipedia.org/wiki/Entity>

What is an Entity System?

Concept

A game or application making use of the C/ES pattern involves at least the following:

Entity - A container into which components can be added, usually hierarchical (any Entity can have sub- Entities).

Component - Class of objects through which behaviors, looks and data can be added to an entity.

Entity: A unique ID that tags each game-object as a separate item. Implementations typically use a plain integer for this.

<http://entity-systems.wikidot.com/es-terminology>

In law, a presumption is an «inference of a particular fact». There are two types of presumptions: rebuttable presumptions and irrebuttable (or conclusive) presumptions. A rebuttable presumption will either shift the burden of production (requiring the disadvantaged party to produce some evidence to the contrary) or the burden of proof (requiring the disadvantaged party to show the presumption is wrong). In short, a fact finder can reject a rebuttable presumption based on other evidence. Conversely, a conclusive/irrebuttable presumption cannot be challenged by contradictory facts or evidence. Sometimes, a presumption must be triggered by a predicate fact—that is, the fact must be found before the presumption applies.

The Uniform Commercial Code (UCC) is a comprehensive set of laws governing all commercial transactions in the United States. It is not a federal law, but a uniformly adopted state law. Uniformity of law is essential in this area for the interstate transaction of business. Because the UCC has been universally adopted, businesses can enter into contracts with confidence that the terms will be enforced in the same way by the courts of every American jurisdiction. The resulting certainty of business relationships allows businesses to grow and the American economy to thrive. For this reason, the UCC is called "the backbone of American commerce."

... Artificial person - fictitious person

https://www.law.cornell.edu/wex/artificial_person

An **artificial person** also known as a **juridical person**; it has a legal name and has certain rights, protections, privileges, responsibilities, and liabilities in law, similar to those of a natural person. In other words, an **artificial person** is a non-human legal entity that is not a single natural person but an organization recognized by law as a fictitious person. In the United States, an **artificial person** usually refers to "any entities established under the law of the United States, any foreign country, or a state, province, territory, possession, commonwealth, or dependency of the United States or any foreign country, and as to which the government, state, province, territory, possession, commonwealth or dependency must maintain a record showing the entity to have been established". Specifically, in a business sense, an **artificial person** is any form of business association and any other non-governmental legal organization, including a profitable or non-profitable corporation, partnership, limited liability company, association, trust, or unincorporated organization.

... legal person

https://www.law.cornell.edu/wex/legal_person

A **legal person** is a human or a non-human legal entity that treated as a person for legal purposes.

A legal person is capable of engaging in all usual legal business that a real person can participate in, such as suing, sued being, owning property, **and entering into contracts**.

In the mid-16th century, the word **real** came to mean, «that which is actually and truly such as its name implies; possessing the essential qualities denoted by its name; hence genuine, undoubted» (1559). Around the beginning of the 17th century, the definition of **real** developed further to mean « having an objective existence; actually existing as a thing». (1601). around 1647 the word **reality** acquired the additional meaning: «real existence; the aggregate of real things or existences that which underlies and is the **TRUTH** of appearances or phenomena».

ABSURDITY:

«FICTION» - a fiction is capable perform actions material reality.

An Absurdity is a Result or Conclusion extremely unreasonable, so as, to be foolish and not to be taken seriously. In reasoning, it is the opposite of seriousness.

Reductio ad absurdum, meaning "reduction to the absurd" is a form of argument in which a proposition is disproved by following its implications logically to an absurd consequence.

Proof by contradiction is a method of argument whereby a proposition proven is true by proving that it is impossible for it to be false.

Therefore:

I. Uniform Commercial Code (ucc) § 1-201.

<https://www.law.cornell.edu/ucc/1/1-201>

General Definitions

(27) «Person» means an individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, government, governmental subdivision, agency, or instrumentality, public corporation, or any other legal or commercial entity.

II. EVERY «PERSON» is an ENTITY

entity

<https://www.law.cornell.edu/wex/entity>

An entity refers to a person or organization possessing separate and distinct legal rights, such as an individual, partnership, or corporation. An entity can, among other things, own property, engage in business, enter into contracts, pay taxes, sue and be sued. An entity is capable of operating legally, suing and making decisions **through** agents, e.g. a corporation, a state, or an association.

So, if «fiction» - entity has the ability to function in material reality, because it is considered REAL (the definition does not explain which of the realities is applied - to abstract reality without physical properties, or actual reality in which objects have physical, material properties), then anyone acting ON BEHALF of this ENTITY must have from this entity, as a real entity endowed with both intangible and tangible properties, a handwritten power of attorney of this entity, granting it the right to organize, administer, enter into contracts, conduct any financial transactions and take any action on behalf of that particular entity.

And so, returning once again to ENTITIES under the given name «Republic of Latvia»: in accordance with the above, for any «international treaty» (for the entry of the «Republic of Latvia» into the «European Union», for the accession of the «Republic of Latvia» to the «United Nations Alliance», for the accession of the «Republic of Latvia» and cooperation with «NATO») - to anyone who after signing these «Agreements», the entity under the given name «Republic of Latvia», MUST have the authority of this entity written by hand, which gives it the right to enter into contracts on behalf of this particular entity.

**Without such authority - ALL FULL
RESPONSIBILITY rests solely on the
subject who signed, and such
«Agreement» is solely an INDIVIDUAL
Transaction.**

Where is Power of attorney of these «PERSON»:

The term *Government* was first invented at the Jesuit College of English in the late 16th Century, then delivered through the guise of the *Shakespeare portfolio* as part of the introduction of the world's first *Mind Influence System* that eventually replaced physical slavery with (voluntary) slavery of the mind. The word *Government* is derived from three (3) Latin words ago meaning "to manage, to drive", vern (a) meaning "servant born in their masters home" and ment (is) meaning "mind". Hence the true original meaning of the word *Government* is "To manage / drive the mind of a servant born in their masters home (plantation)".

Mind Terror

Political Mind Terror based is on seven (7) fundamentally flawed and false concepts being

Animalization, Traumatization, Elimination, Implantation, Disassociation, Suppression, and Recognition:

- (i) *Animalization* is the false and flawed belief that all men and women are essentially animals, devoid of any higher spiritual attributes; and
- (ii) *Traumatization* is the false and flawed belief that physical and cognitive trauma is an effective tool for "deprogramming" and "reprogramming" minds; and
- (iii) *Elimination* is the false and flawed belief that free will can be eliminated through effective mind control techniques; and
- (iv) *Implantation* is the false and flawed belief that complete new physical memories can be

implanted into the mind; and

- (v) *Disassociation is the false and flawed belief that the victim will disassociate the trauma and torture from the torturers; and*
- (vi) *Suppression is the false and flawed belief that the memory of the trauma and other false systems of mind control will be suppressed as if "it never happened"; and*
- (vii) *Recognition is the false and flawed belief that the alleged implanted memories be can brought up, and triggered through special signs and signals.*

The most common perpetrators of Mind Terror are governments in maintaining systems of control. The use of Mind Terror including any laws, statutes or orders that permit it is prohibited.

BUFFALO LAW REVIEW

[Vol. 49]

This story, which is a political one, differs from the generally accepted history of the Uniform Commercial Code. The Code's drafting "continues to be represented, as a neutral, balanced, expertise-based process."⁷⁷ The reality is that the Code is a political document—the product of political realities of the early 1950s on the state level.

Allen R. Camp (Professor Emeritus of Law, John Marshall Law School)'s assertion that the Uniform Commercial Code (U.C.C.) is a political document, a product of political reality, will be confirmed by the facts appearing in the following content of this instrument, namely the fact that:

**politics is commerce,
commerce is politics,**

all «politicians» are businessmen who act only in their own name!

Under the designations «STATE», «GOVERNMENT» - the PRIVATE interests of corporation owners, company owners are hidden. «WAR» is nothing but a REDISTRIBUTION OF POWER BETWEEN THE «SLAVE PLANET OWNERS» - MUTUAL INTRIGUE OF THE CLAN, to which the HUMAN POPULATION IS SACRIFICED, as a result of which the confused human beings slaughter each other with their own hands - LIKE IN A SLAUGHTERHOUSE!

«Trinity» (English Trinity; Russian «Триумф») is the world's first test of nuclear weapons technology, which occurred on July 16, 1945 in the state of New Mexico (USA), at the Alamogordo test site, as part of the Manhattan Project. During the test, an implosion-type plutonium bomb was tested, called the «Gadget». The bomb explosion was equivalent to approximately 21 kilotons of TNT. This explosion considered is the beginning of the nuclear age.

... PERMANENT BAN ON BASING OF WEAPONS IN SPACE.

The President shall--

- (1) implement a permanent ban on space-based weapons of the United States and remove from space any existing space-based weapons of the United States; and
- (2) immediately order the permanent termination of research and development, testing, manufacturing, production, and deployment of all space-based weapons of the United States and their components.

4. WORLD AGREEMENT BANNING SPACE-BASED WEAPONS.

The President shall direct the United States representatives to the United Nations and other international organizations to immediately work toward negotiating, adopting, and implementing a world agreement banning space-based weapons....

(2)(A) The terms “weapon” and “weapons system” mean a device capable of any of the following:

- (i) Damaging or destroying an object (whether in outer space, in the atmosphere, or on earth) by--
 - (I) firing one or more projectiles to collide with that object;
 - (II) detonating one or more explosive devices in close proximity to that object;
 - (III) directing a source of energy (including molecular or atomic energy, subatomic particle beams, electromagnetic radiation, plasma, or extremely low frequency (ELF) or ultra-low frequency (ULF) energy radiation) against that object; or
 - (IV) any other unacknowledged or yet undeveloped means.
- (ii) Inflicting death or injury on, or damaging or destroying, a person (or the biological life, bodily health, mental health, or physical and economic well- being of a person)--
 - (I) through the use of any of the means described in clause (i) or subparagraph (B);
 - (II) through the use of land-based, sea- based, or space-based systems using radiation, electromagnetic, psychotronic, sonic, laser, or other energies directed at individual persons or targeted populations for the purpose of information war, mood management, or mind control of such persons or populations; or
 - (III) by expelling chemical or biological agents in the vicinity of a person.
- (B) Such terms include exotic weapons systems such as--
 - (i) electronic, psychotronic, or information weapons;
 - (ii) chemtrails;
 - (iii) high altitude ultra low frequency weapons systems;
 - (iv) plasma, electromagnetic, sonic, or ultrasonic weapons;
 - (v) laser weapons systems;
 - (vi) strategic, theater, tactical, or extraterrestrial weapons; and
 - (vii) chemical, biological, environmental, climate, or tectonic weapons.
- (C) The term “exotic weapons systems” includes weapons designed to damage space or natural ecosystems (such as the ionosphere and upper atmosphere) or climate, weather, and tectonic systems with the purpose of inducing damage or destruction upon a target population or region on earth or in space.

0462795 – July 16, 1891 – Method Of Producing Rain-Fall
803180 – October 31, 1905 – Means for Producing High Potential Electrical Discharges
1103490 – August 6, 1913 – Rain-Maker
1225521 – September 4, 1915 – Protecting From Poisonous Gas In Warfare
1279823 – September 24, 1918 – Process and Apparatus for Causing Precipitation by Coalescence of Aqueous Particles Contained in the Atmosphere
1284982 – November 19, 1918 – Process and Apparatus for Procuring and Stimulating Rainfall
1338343 – April 27, 1920 – Process And Apparatus For The Production of Intense Artificial Clouds, Fogs, or Mists
1358084 – November 9, 1920 – Method of Producing Fog-Screens
1619183 – March 1, 1927 – Process of Producing Smoke Clouds From Moving Aircraft
1665267 – April 10, 1928 – Process of Producing Artificial Fogs
1892132 – December 27, 1932 – Atomizing Attachment For Airplane Engine Exhausts
1895765 – January 31, 1933 – Artificial Production of Fog
1928963 – October 3, 1933 – Electrical System And Method
1957075 – May 1, 1934 – Airplane Spray Equipment
1993316 – March 5, 1935 – Apparatus for and Method of Producing Oil Fog
2052626 – September 1, 1936 – Method of Dispelling Fog
2097581 – November 2, 1937 – Electric Stream Generator – Referenced in 3990987
2173756 – September 19, 1939 – Process of Producing Fog or Mist by Partial and Flameless Combustion
2352677 – July 4, 1944 – Artificial Fog Production
2476171 – July 18, 1945 – Smoke Screen Generator
2409201 – October 15, 1946 – Smoke Producing Mixture
2480967 – September 6, 1949 – Aerial Discharge Device
2527230 – October 24, 1950 – Method of Crystal Formation and Precipitation
2527231 – October 24, 1950 – Method of Generating Silver Iodide Smoke
2550324 – April 24, 1951 – Process For Controlling Weather
2582678 – June 15, 1952 – Material Disseminating Apparatus For Airplanes
2611992 – September 30, 1952 – Engine Exhaust Operated Fluent Material Distributor
2614083 – October 14, 1952 – Metal Chloride Screening Smoke Mixture
2633455 – March 31, 1953 – Smoke Generator
2688069 – August 31, 1954 – Steam Generator – Referenced in 3990987
2721495 – October 25, 1955 – Method And Apparatus For Detecting Minute Crystal Forming Particles Suspended in a Gaseous Atmosphere
2730402 – January 10, 1956 – Controllable Dispersal Device
2903188 – April 2, 1956 – Control of Tropical Cyclone Formation
2756097 – July 24, 1956 – Process for Weather Control
2801322 – July 30, 1957 – Decomposition Chamber for Monopropellant Fuel – Referenced in 3990987
2835530 – May 20, 1958 – Process for the Condensation of Atmospheric Humidity and Dissolution of Fog
2871344 – January 27, 1959 – Long Distance Communication System
2881335 – April 7, 1959 – Generation of Electrical Fields
2908442 – October 13, 1959 – Method For Dispersing Natural Atmospheric Fogs And Clouds
2962450 – November 29, 1960 – Fog Dispelling Composition
2963975 – December 13, 1960 – Cloud Seeding Carbon Dioxide Bullet
3019989 – February 6, 1962 – Atmospheric Space Charge Modification
2986360 – May 30, 1962 – Aerial Insecticide Dusting Device
3046168 – July 24, 1962 – Chemically Produced Colored Smokes
3056556 – October 2, 1962 – Method of Artificially Influencing the Weather
3126155 – March 24, 1964 – Silver Iodide Cloud Seeding Generator
3127107 – March 31, 1964 – Generation of Ice-Nucleating Crystals
3131131 – April 28, 1964 – Electrostatic Mixing in Microbial Conversions
3140207 – July 7, 1964 – Pyrotechnic Composition
3174150 – March 16, 1965 – Self-Focusing Antenna System
3234357 – February 8, 1966 – Electrically Heated Smoke Producing Device
3274035 – September 20, 1966 – Metallic Composition For Production of Hydroscopic Smoke
3284005 – November 8, 1966 – Weather Control by Artificial Means
3300721 – January 24, 1967 – Means For Communication Through a Layer of Ionized Gases
3313487 – April 11, 1967 – Cloud Seeding Apparatus
3338476 – August 29, 1967 – Heating Device For Use With Aerosol Containers

Trust trustee's verdict: TRUST ADMINISTRATION IS PROHIBITED. Not subject to appeal.

3375148 – March 26, 1968 – Pyrotechnics Comprising Silver Iodate, Ammonium Nitrate, Nitrocellulose and Nitrate Esters

3378201 – April 16, 1968 – Method for Precipitating Atmospheric Water Masses

3410489 – November 12, 1968 – Automatically Adjustable Airfoil Spray System With Pump

3418184 – December 24, 1968 – Smoke Producing Propellant

3429507 – February 25, 1969 – Rainmaker

3432208 – November 7, 1967 – Fluidized Particle Dispenser

3441214 – April 29, 1969 – Method And Apparatus For Seeding Clouds

3445844 – May 20, 1969 – Trapped Electromagnetic Radiation Communications System

3456880 – July 22, 1969 – Method Of Producing Precipitation From The Atmosphere

3518670 – June 30, 1970 – Artificial Ion Cloud

3517512 – June 30, 1970 – Apparatus for Suppressing Contrails

3534906 – October 20, 1970 – Control of Atmospheric Particles

3545677 – December 8, 1970 – Method of Cloud Seeding

3564253 – February 16, 1971 – System And Method For Irradiation Of Planet Surface Areas

3587966 – June 28, 1971 – Freezing Nucleation

3595477 – July 27, 1971 – Fog Dispersing Method and Compositions

3601312 – August 24, 1971 – Methods of Increasing The Likelihood of Precipitation By The Artificial Introduction Of Sea Water Vapor Into The Atmosphere Winward Of An Air Lift Region

3608810 – September 28, 1971 – Methods of Treating Atmospheric Conditions

3608820 – September 20, 1971 – Treatment of Atmospheric Conditions by Intermittent Dispensing of Materials Therein

3613992 – October 19, 1971 – Weather Modification Method

3630950 – December 28, 1971 – Combustible Compositions For Generating Aerosols, Particularly Suitable For Cloud Modification And Weather Control And Aerosolization Process

USRE29142 – May 22, 1973 – Combustible compositions for generating aerosols, particularly suitable for cloud modification and weather control and aerosolization process

3659785 – December 8, 1971 – Weather Modification Utilizing Microencapsulated Material

3666176 – March 3, 1972 – Solar Temperature Inversion Device

3677840 – July 18, 1972 – Pyrotechnics Comprising Oxide of Silver For Weather Modification Use

3690552 – September 12, 1972 – Fog Dispersal

3722183 – March 27, 1973 – Device For Clearing Impurities From The Atmosphere

3748278 – July 24, 1973 – Process and Agents Having an Influence on the Weather

3751913 – August 14, 1973 – Barium Release System

3769107 – October 30, 1973 – Pyrotechnic Composition For Generating Lead Based Smoke

3784099 – January 8, 1974 – Air Pollution Control Method

3785557 – January 15, 1974 – Cloud Seeding System

3788543 – January 29, 1974 – Uniform Size Particle Generator

3795626 – March 5, 1974 – Weather Modification Process

3802971 – April 9, 1974 – Pyrotechnic Formulations for Weather Modification Comprising a Mixture of Iodates

3808595 – April 30, 1974 – Chaff Dispensing System

3813875 – June 4, 1974 – Rocket Having Barium Release System to Create Ion Clouds In The Upper Atmosphere

3835059 – September 10, 1974 – Methods of Generating Ice Nuclei Smoke Particles For Weather Modification And Apparatus Therefore

3835293 – September 10, 1974 – Electrical Heating Apparatus For Generating Super Heated Vapors

3858805 – January 7, 1975 – Ice Nucleation by Micas

3877642 – April 15, 1975 – Freezing Nucleant

3882393 – May 6, 1975 – Communications System Utilizing Modulation of The Characteristic Polarization of The Ionosphere

3887580 – June 3, 1975 – Method of Crystallization of Water in Supercooled Clouds and Fogs and Reagent Useful in Said Method

3896993 – July 29, 1975 – Process For Local Modification of Fog And Clouds For Triggering Their Precipitation And For Hindering The Development of Hail Producing Clouds

3899129 – August 12, 1975 – Apparatus for generating ice nuclei smoke particles for weather modification

3899144 – August 12, 1975 – Powder contrail generation

3915379 – October 28, 1975 – Method of Controlling Weather

3940059 – February 24, 1976 – Method For Fog Dispersion

3940060 – February 24, 1976 – Vortex Ring Generator

3990987 – November 9, 1976 – Smoke generator

3992628 – November 16, 1976 – Countermeasure system for laser radiation

3994437 – November 30, 1976 – Broadcast dissemination of trace quantities of biologically active chemicals

4042196 – August 16, 1977 – Method and apparatus for triggering a substantial change in earth characteristics and measuring earth changes

RE29,142 – February 22, 1977 – Combustible compositions for generating aerosols, particularly suitable for cloud modification and weather control and aerosolization process

4009828 – March 1 1977 – Organic Nucleating Agent for both Warm and Cold Clouds

Trust trustee's verdict: TRUST ADMINISTRATION IS PROHIBITED. Not subject to appeal.

4035726 – July 12, 1977 – Method of controlling and/or improving high-latitude and other communications or radio wave surveillance systems by partial control of radio wave et al

4096005 – June 20, 1978 – Pyrotechnic Cloud Seeding Composition

4129252 – December 12, 1978 – Method and apparatus for production of seeding materials

4141274 – February 27, 1979 – Weather modification automatic cartridge dispenser

4167008 – September 4, 1979 – Fluid bed chaff dispenser

4347284 – August 31, 1982 – White cover sheet material capable of reflecting ultraviolet rays

4362271 – December 7, 1982 – Procedure for the artificial modification of atmospheric precipitation as well as compounds with a dimethyl sulfoxide base for use in carrying out said procedure

4373391 – February 15, 1983 – Relative Humidity Sensitive Material

4396152 – August 2, 1983 – Aerosol Dispenser System

4402480 – September 6, 1983 – Atmosphere modification satellite

4412654 – November 1, 1983 – Laminar microjet atomizer and method of aerial spraying of liquids

4415265 – November 15, 1983 – Method and apparatus for aerosol particle absorption spectroscopy

4470544 – September 11, 1984 – Method of and Means for weather modification

4475927 – October 9, 1984 – Bipolar Fog Abatement System

4600147 – July 15, 1986 – Liquid propane generator for cloud seeding apparatus

4633714 – January 6, 1987 – Aerosol particle charge and size analyzer

4643355 – February 17, 1987 – Method and apparatus for modification of climatic conditions

4653690 – March 31, 1987 – Method of producing cumulus clouds

4684063 – August 4, 1987 – Particulates generation and removal

4686605 – August 11, 1987 – HAARP Patent / EASTLUND PATENT – Method and apparatus for altering a region in the earth's atmosphere, ionosphere, and/or magnetosphere

4704942 – November 10, 1987 – Charged Aerosol

4712155 – December 8, 1987 – Method and apparatus for creating an artificial electron cyclotron heating region of plasma

4742958 – May 10, 1988 – Method for Making Artificial Snow

4744919 – May 17, 1988 – Method of dispersing particulate aerosol tracer

4766725 – August 30, 1988 – Method of suppressing formation of contrails and solution therefor

4829838 – May 16, 1989 – Method and apparatus for the measurement of the size of particles entrained in a gas

4836086 – June 6, 1989 – Apparatus and method for the mixing and diffusion of warm and cold air for dissolving fog

4873928 – October 17, 1989 – Nuclear-sized explosions without radiation

4948257 – August 14, 1990 – Laser optical measuring device and method for stabilizing fringe pattern spacing

1338343 – August 14, 1990 – Process and Apparatus for the production of intense artificial Fog

4999637 – March 12, 1991 – Creation of artificial ionization clouds above the earth

5003186 – March 26, 1991 – Stratospheric Welsbach seeding for reduction of global warming

5005355 – April 9, 1991 – Method of suppressing formation of contrails and solution therefor

5038664 – August 13, 1991 – Method for producing a shell of relativistic particles at an altitude above the earths surface

5041760 – August 20, 1991 – Method and apparatus for generating and utilizing a compound plasma configuration

5041834 – August 20, 1991 – Artificial ionospheric mirror composed of a plasma layer which can be tilted

5056357 – October 15, 1991 – Acoustic method for measuring properties of a mobile medium

5059909 – October 22, 1991 – Determination of particle size and electrical charge

5104069 – April 14, 1992 – Apparatus and method for ejecting matter from an aircraft

5110502 – May 5, 1992 – Method of suppressing formation of contrails and solution therefor

5156802 – October 20, 1992 – Inspection of fuel particles with acoustics

5174498 – December 29, 1992 – Cloud Seeding

5148173 – September 15, 1992 – Millimeter wave screening cloud and method

5242820 – September 7, 1993 – Army Mycoplasma Patent Patent

5245290 – September 14, 1993 – Device for determining the size and charge of colloidal particles by measuring electroacoustic effect

5286979 – February 15, 1994 – Process for absorbing ultraviolet radiation using dispersed melanin

5296910 – March 22, 1994 – Method and apparatus for particle analysis

5327222 – July 5, 1994 – Displacement information detecting apparatus

5357865 – October 25, 1994 – Method of cloud seeding

5360162 – November 1, 1994 – Method and composition for precipitation of atmospheric water

5383024 – January 17, 1995 – Optical wet steam monitor

5425413 – June 20, 1995 – Method to hinder the formation and to break-up overhead atmospheric inversions, enhance ground level air circulation and improve urban air quality

5434667 – July 18, 1995 – Characterization of particles by modulated dynamic light scattering

5436039 – July 25, 1995 – Artificial Snow in an Aggregate Form of Snow Granules

DELITTI CONTRO L'UMANITÀ

Articolo 13

Agli effetti di questo titolo, si intende per:

- a) «**attacco diretto contro la popolazione civile**»: condotte che implicano la commissione di taluno degli atti preveduti all'articolo 15 contro la popolazione civile, in attuazione o in esecuzione del disegno politico di uno Stato o di una organizzazione, diretto a realizzare l'attacco;
- b) «**sterminio**»: il sottoporre intenzionalmente le persone a condizioni di vita dirette a cagionare la distruzione di parte della popolazione;

Crimes against Humanity

Article 13

(Definitions)

For the purposes of this chapter:

- a) «**Attack directed against the civilian population**» means a course of conduct involving the commission of acts referred to in article 15 against the civilian population, pursuant to or in furtherance of a State or organizational policy to commit such attack;
- b) «**extermination**» means the intentional infliction of conditions of life calculated to bring about the destruction of part of a population;

If the «Latvian local laws» <https://likumi.lv/par-mums> and <https://www.vestnesis.lv/english> are only informative, a logical question arises under which «jurisdiction» is this territory of «Latvia»?

Ja «Latvijas lokālie likumi» <https://likumi.lv/par-mums> un <https://www.vestnesis.lv/english> ir tikai informatīvi, rodas loģisks jautājums, kādas «jurisdikcijas» pakļautībā atrodas šī teritorija «Latvija»?

**The answer to this question is in this file

II. Entering into marriage [29 November 2012]

40. [29 November 2012]

41. A marriage shall be entered into not earlier than within a month and not later than within six months following the submission of an application and other documents necessary for entering into a marriage to the **General Registry Office**, if there are no objections against entering into the marriage indicated in Sections 32, 35, 37 and 38 of this Law.

[29 November 2012]

If this «Civil Law» had been intended for FOREIGNERS, then what would it have to do with, for example, an «American», a «Chinese», a Frenchman, or a «citizen in the territory of Latvia» of any other «Country» (assuming that «Countries» supposedly exist) binding «The General Register Office», which is exclusively in England and Wales?

<https://www.gov.uk/general-register-office>

Ja šis «Civil Likums» būtu bijis domāts ĀRZEMNIEKIEM, tad kāds sakars, piemēram «amerikānim», «ķīnietim», francūzim», vai jebkuras citas «Valsts» (pieņemot, ka it kā pastāv «Valstis») «pilsonim Latvijas teritorijā» būtu saistošs «The General Register Office», kas ir tikai un vienīgi «in England and Wales»?

<https://www.gov.uk/general-register-office>

Answer: «General Registry Office»

General Register Office

The General Register Office holds records of births, deaths, marriages, civil partnerships, stillbirths and adoptions in England and Wales.

occupant

Occupant is someone living in or using a premise or property as a **tenant** or owner, or someone has **occupancy** of a premise or property. An occupant does not need to be a tenant or owner, but can be someone living or using a property with the intention of acquiring ownership. This means occupants not are always authorized.

An unauthorized occupant can be **evicted** by the landlord or actual owner of the property. Examples of unauthorized occupant are someone who is not on the lease, or can be a **holdover tenant**.

tenant

A tenant is a **person** or **entity** who temporarily occupies or possesses **real estate** that belongs to a **landlord**. «**Land Lord**»

<https://www.law.cornell.edu/wex/tenant>

landlord «Land Lord»

Landlord usually refers the owner of **real property**, such as a house, building, or land, that is **leased** or rented to another person or entity, called the **tenant**.

In a lease contract, the **landlord** or **landlady** transfers part of his or her interest to the tenant. That is, the tenant can occupy and use the property. The landlord can limit the tenant's use of the property or require the tenant to do something in the lease contract. However, once the lease is signed, the landlord cannot enter the house without tenant's permission. Even if the landlord specifies his or her right to entry to the house in the lease contract, the landlord must give tenant adequate notice before the actual entry. By the end of the lease period, the landlord retains the property, and can either extend the current lease, or lease the property to a new tenant, or stop leasing the property.

If the tenant refuse to leave the property after the end of the lease, or the tenant fails to pay rent on time, the landlord has power to **evict** the tenant.

Landlord-tenant law is special in the United States, as this area covers contract law and property law. Even if a landlord and tenant fail to sign a lease, there will still be a valid relationship. See **landlord-tenant law**, and **landlord and tenant** for more details.

real property

real property (land law): an overview

Property signifies dominion or right of use, control, and disposition which one may lawfully exercise over things, objects, or land. One of the basic dividing lines between property is that between real property and personal property. Generally, the term real property refers to land. Land, in its general usage, includes not only the face of the earth but everything of a permanent nature over or under it. This includes structures and minerals.

There are further divisions within the real property classification. The most important are freehold estates, non-freehold estates, and concurrent estates. (Others are future interests, specialty estates, and incorporeal interests).

- Freehold estates are those in which an individual has ownership for an indefinite period of time. An example of a freehold estate is the "fee simple absolute", which is inheritable and lasts as long, as the individual and his heirs wants to keep it. Another example is the "life estate", in which the individual retains possession of the land for the duration of his or her life.
- Non-freehold estates are property interests of limited duration. They include tenancy for years, tenancy at will, and tenancy at sufferance.
- Concurrent estates exist when property owned or possessed is by two or more individuals simultaneously.

For the most part, states have exclusive jurisdiction over the land within their borders, and their law concerning the kind of interests that can be held and how they are created is not subject to federal law, *See* [Real estate transactions](#).

tax

Tax is any charge of money or property that imposed by a government upon individuals or entities that are within the government's authority to collect. This term, however, generally does not include charges imposed in exchange for the provision of specific goods or services (e.g., bridge tolls or sanitation fees).

Although most modern taxes are levied on the basis of economic measurements such as income, consumption, property, and wealth, some governments also impose excise taxes on the use or sale of specified goods (e.g., gasoline or cigarettes).

Income Tax

Overview:

The power to collect income tax found is in the Constitution of the United States. Article 1, Section 8, Clause 1 (Also known as the Taxing and Spending Clause) states: “The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defence and general Welfare of the United States; but all Duties, Imposts and Excises shall be uniform throughout the United States;”

taxpayer identification number (TIN)

A taxpayer identification number (TIN) is a unique nine-digit number assigned to a person or entity. The Internal Revenue Service (IRS) uses TINs for tax purposes to identify and track taxpayers. Among others, TINs are mandatory to file tax returns or claim treaty benefits.

The following are the types of TINs:

- Social Security Number (SSN).
- Employer Identification Number (EIN).
- Individual Taxpayer Identification Number (ITIN).
- Taxpayer Identification Number for Pending U.S. Adoptions (ATIN).
- Preparer Taxpayer Identification Number (PTIN).

TINs can be issued by the Social Security Administration (SSA) or by the IRS. The SSA issues the SSN, whereas the IRS issues all other TINs listed above.

«currency»

in British English

1. a metal or paper medium of exchange that is in current use in a particular country
2. general acceptance or circulation; prevalence

<https://www.collinsdictionary.com/dictionary/english/currency>

World currency: «DOLLAR»: DOLL A/R

A/R

A/R is the abbreviation for accounts receivable.

<https://www.law.cornell.edu/wex/a/r>

In the period following the Bretton Woods Conference of 1944, exchange rates around the world were pegged to the United States **dollar**, which could be exchanged for a fixed amount of gold. This reinforced the dominance of the US dollar as a global currency.

Information on Tax Identification Numbers

For Individuals:

TIN issued to individuals are identical with their personal identity number.

Example: 38XXXX-XXXX * in order to avoid coincidence with a real person and based on data protection, the numbers in the example are replaced by X

2) In case the person, to whom the personal identity number has been allocated until 30 June 2017 including, hasn't requested the change of the allocated personal identity number, the personal identity number contains the date of birth of the person (ddmmyy), the 7th digit indicates century ("0" is 19th century, "1"-20th century, "2"-21th century). Format: DDMMYY99999 (date of birth + 5 digits)).

Example: 121212-XXXXX
